2023 CHINESE CONGRESS OF HOLISTIC INTEGRATIVE ONCOLOGY

WELCOME MESSAGE

Dear Colleagues,

On behalf of the organizing committee of the 2023 Chinese Congress on Holistic Integrative Oncology (CCHIO), it is our privilege to invite you to attend the 2023 CCHIO on November 16-19, 2023 in Tianjin, China, which is the home to the China Anti-Cancer Association and the birthplace of Chinese Oncology. The 2023 CCHIO is organized by China Anti-Cancer Association, sponsored by Tianjin Medical University Cancer Institute & Hospital, Tianjin Anti-Cancer Association, and Chinese Institute of Development Strategy on Integrative Medicine.

CCHIO is the largest congress in the field of cancer care in China with the theme of "Cancer Control, Winning in Integration". 2023 CCHIO will feature on frontiers of cancer care and research innovation through keynote sessions and over hundred con-current sessions. It will offer us a great opportunity to facilitate academic exchanges in oncological fields and advance interdisciplinary cooperation as well as integrate clinical, research, industry, and application.

This Congress will bring together leading experts from home and abroad to share with cutting-edge research findings and discuss future horizons on cancer control. We convince that all participants would benefit greatly from this unique platform to communicate with colleagues worldwide at the Congress.

Tianjin is one of the biggest industrial and port cities in China and it is also known as "the diamond of the Bohai Gulf". Historical changes in the past more than 600 years have made Tianjin a unique city with a mixture of ancient and modern in both Chinese and Western styles. We sincerely invite you to participate in this Congress and witness this grand academic event with us. We hope that we will work hand in hand to promote the vigorous development of cancer control in China and the world!

We look forward to seeing you in Tianjin, China!
